

EmpowerNow Investor Deck - Draft 8

The Perfect Balance: Proven Core + AI Revolution

16 Core Slides That Win

Slide 1: The Authority Open

EmpowerID + EmpowerNow

The \$20M IAM Leader Defining Agent Governance

We've secured enterprise identity for 15 years.

Now their 10,000 agents per enterprise need the same control.

The Breakthrough: Any API → Governed Agent Tool → 5 Minutes

Profitable • Growing 30% • Agent Governance Pioneer

Slide 2: The AI Revolution Context

The Agent Explosion Is Here

What Changed in 2024:

- Anthropic MCP launched - Agents can now use tools

- **OpenAI Swarm** - Multi-agent systems going mainstream
- **Microsoft Copilot Studio** - Every enterprise building agents
- **Our customers:** "We need governance NOW"

The Governance Gap:

- **No cross-platform control** - Each platform has its own rules
- **No spending limits** - Runaway costs from agent sprawl
- **No audit trail** - Can't prove compliance
- **No unified tools** - 6 weeks per integration

We're the only ones shipping the solution today.

Slide 3: Our Unfair Advantages

Why We Own This Market

What We Built Over 15 Years:

Asset	Value	Competitor Gap
Trust	50+ Fortune 500s	Startups: 0-5
Expertise	500+ connectors built	Others: <50
Execution	\$20M profitable business	Others: Burning cash
Innovation	CRUD Service patent pending	Others: Manual only

Result:

- **3 Fortune 500 POCs** at 90% software model
- **\$5M qualified pipeline**
- **First mover with MCP** adapter shipping

"We evaluated everyone. Only EmpowerID understands enterprise-scale governance."
– Fortune 100 CISO

Slide 4: The Technical Revolution

CRUD Service: The AI Tool Factory

The Problem:

Enterprise needs 1000s of agent tools. Each takes 6 weeks to build.

Our Breakthrough:

Any API/Database → [CRUD Service] → Agent Tool (5 minutes)

↓

Works Everywhere

(MCP, OpenAI, Copilot, Vertex)

↓

Built-in Governance

(Auth, Budgets, Audit, Policy)

This Changes Everything:

- **Velocity:** 500x faster tool creation
- **Scale:** Unlimited tools without developers
- **Control:** Governance baked in, not bolted on

20 years of connector expertise, now an AI-powered factory.

Slide 5: Live Demo - See the Magic

90 Seconds That Change Minds

0:00-0:30 - Tool Creation

- Salesforce API → MCP tool
- Visual, no code, instant

0:30-0:60 - Multi-Platform Publishing

- Same tool → MCP + OpenAI + Copilot
- One creation, everywhere execution

0:60-0:90 - Governance in Action

- Block unauthorized call (plan validation)
- Enforce spend limit (HTTP 402)
- Cryptographic receipt (6-line JSON)

Not slides. Not promises. Live proof.

Slide 6: The Complete Stack

Create • Control • Prove

Create (GA)

- **CRUD Service** - API → Tool in 5 minutes
- **Automation Studio** - Visual workflow designer
- **Multi-platform adapters** - Write once, run everywhere

Control (GA/Beta)

- **ARIA MCP Gateway** - Pre-execution validation
- **AuthZEN PDP** - Industry-standard decisions
- **ARIA Shield** - Runtime budget/parameter enforcement

Prove (Beta)

- **Receipt Vault** - Every action recorded
- **Cryptographic chain** - Tamper-proof audit
- **Cost attribution** - FinOps built in

The only complete agent governance platform shipping today.

Slide 7: Market Timing is Perfect

Why This Explodes Now

The Convergence:

Market Dynamics:

- **2024:** 100 agents/enterprise
- **2025:** 1,000 agents/enterprise
- **2026:** 10,000 agents/enterprise

Each agent needs 10-50 tools. Do the math.

Slide 8: The Business Evolution

From Profitable Core to Explosive Growth

The Managed Transition:

Metric	2024 (Actual)	2025	2026	2027
Revenue	\$21M	\$35M	\$75M	\$150M
ARR %	42%	60%	75%	85%
Margins	65%	72%	78%	85%
Model	Mixed	Transitioning	Platform	Pure SaaS

How We Get There:

- Existing customers expand (human + agent governance)
- New customers buy platform-first
- Partners deliver services
- Product replaces consulting

Not abandoning strength. Leveraging it.

Slide 9: Unit Economics That Scale

The SaaS Dream Metrics

Today (Blended):

Customer Value: \$400K/year

Gross Margin: 65%

CAC: \$50K

Payback: 18 months

EmpowerNow Deals (Proven):

30 endpoints $\times$ \$500/mo = \$15K MRR (\$180K ARR)

Gross Margin: 85%

CAC: \$10K

Payback: 6 months

The Multiplier Effect:

- No linear headcount scaling
- Platform network effects
- Usage-based expansion
- Near-zero marginal cost

SaaS multiples justified by SaaS economics.

Slide 10: Traction Momentum

Shipping, Not Promising

Product Velocity:

- **Weekly releases** - Public changelog
- **3 adapters GA** - MCP, OpenAI, Copilot (beta)
- **512 governed API calls** this week
- **Sub-10-minute tool creation** achieved

Commercial Proof:

- **3 Fortune 500 POCs** (90% software)
- **\$5M qualified pipeline**
- **2 SI partnerships** in negotiation
- **15 active evaluations**

Market Recognition:

- Anthropic reviewing our MCP adapter
- Microsoft identity team engagement
- Gartner inquiry scheduled

The momentum is undeniable.

Slide 11: Distribution Strategy

Land, Expand, Dominate

Phase 1: Direct (Now)

- 50+ Fortune 500 relationships

- Upsell human + agent governance
- \$10M ARR in 12 months

Phase 2: Channel (Q2)

- SI partnerships (Accenture, Deloitte)
- Platform alliances (co-sell agreements)
- \$25M ARR in 24 months

Phase 3: Embedded (Q4)

- OEM into platforms (white label)
- Marketplace listings (AWS, Azure)
- \$100M ARR in 36 months

Multiple paths. No dependencies.

Slide 12: Why We Win

The Moat Is Real

Structural Advantages:

Barrier	Why Others Can't Catch Up
Trust	15 years earning Fortune 500 confidence
Technical Depth	500+ connectors = 10,000 person-months
Patents	Graph-Anchored ABAC, CRUD Service
Network Effects	More tools → More value → More adoption
Switching Costs	Governance embedded in operations

The Big Players Can't Pivot:

- **Okta (\$2B):** Protecting identity revenue
- **SailPoint (\$800M):** Legacy architecture
- **CyberArk (\$600M):** Different buyer

We're not competing. We're creating the category.

Slide 13: Financial Projections

Conservative Growth, Aggressive Margins

Revenue Build:

Base Business: \$20M growing 20%
+ EmpowerNow Expansion: 200% CAGR
+ Partner Distribution: 2026 inflection
= Path to \$150M (2027)

Valuation Framework:

- **Today:** $8.8MARR \times 5x = 44M$ (floor)
- **Forward:** $35MARR \times 8x = 280M$ (2025)
- **Strategic:** $10x+ \text{ on } 150M = 1.5B$ (2027)

Key Assumptions:

- 50% of base converts to platform
- 100 net new enterprises by 2027
- \$500/endpoint pricing sustained
- 85% gross margins achieved

Based on contracts, not conjecture.

Slide 14: Use of Capital

\$15M to Own the Category

Product Acceleration (40%)

- Complete adapter coverage (all platforms)
- CRUD Service library (1000+ connectors)
- Open-source receipt verifier

Market Capture (35%)

- Enterprise sales expansion
- Partner enablement program
- Developer ecosystem

Operations Scale (25%)

- SOC 2 Type II certification
- FedRAMP authorization
- Global infrastructure

Success Metrics:

- 3+ platform adapters GA (Q1)
- 10 production customers (Q2)
- \$15M ARR run rate (Q4)

Every dollar has measurable ROI.

Slide 15: The Team

Proven Operators + AI Vision

Patrick Parker, CEO

15 years building EmpowerID to \$20M (profitable)

Bradford Mandell, SVP Sales

\$50M+ enterprise software sold, Fortune 500 relationships

Ujwal Halkatti, COO

12 years scaling operations, former SolarWinds director

Cristiana Vicovan, Product

CTO of the Year (Europe), Oracle cloud veteran

Carles Dalmau, Architecture

Enterprise security systems specialist

Collective Proof:

- \$250M+ enterprise software delivered
- 500+ production deployments
- Zero key person risk (distributed leadership)

We've done this before. We'll do it bigger.

Slide 16: The Close

The Moment Is Now

Why This Investment Wins:

1. Proven Base (\$20M, profitable)

- Eliminates execution risk
- Provides valuation floor
- Funds growth if needed

2. Perfect Timing (MCP launch)

- First mover advantage
- 18-month head start
- Network effects building

3. Massive Market (\$100B TAM)

- Every enterprise needs this
- No dominant solution exists
- Winner takes most dynamics

Your Decision:

Fund the leader or watch them win anyway.

We don't need capital to survive.

We're raising to accelerate dominance.

Let's define agent governance together.

ONE-PAGE EXECUTIVE SUMMARY

EmpowerID + EmpowerNow: The \$20M IAM Leader Owning Agent Governance

The Opportunity

The agent revolution is here. Enterprises are deploying thousands of AI agents that need governance. We're the only ones with enterprise-grade control shipping today.

Our Advantages

- **Proven:** \$20M revenue, profitable, 15 years
- **Trusted:** 50+ Fortune 500 relationships
- **Technical:** CRUD Service creates tools in 5 minutes (not 6 weeks)
- **First Mover:** MCP adapter shipping, 3 Fortune 500 POCs

The Technology

CRUD Service (patent pending) turns any API into a governed agent tool instantly. Combined with our enforcement stack (Gateway + PDP + Shield) and cryptographic receipts, we deliver complete agent governance across all platforms.

The Business Model

- **Today:** \$21M revenue, 65% margins, 42% recurring
- **Transition:** Moving to 85% software, 85% margins
- **Pricing:** \$500/endpoint/month + usage
- **Scale:** 100 customers = $18M ARR \rightarrow 1000 = 180M ARR$

Market Dynamics

- Anthropic MCP just launched (we're integrated)
- Every enterprise deploying agents NOW
- 10,000 agents $\times$ 50 tools = 500,000 governance points per enterprise
- No competition at enterprise scale

Financial Projections

2024: 21M(*actual*) 2025 :35M (67% growth)

2026: 75M(114) 2027 :150M (100% growth)

The Ask

\$15M Series A at a valuation reflecting our proven base + transformational upside. Not survival capital —acceleration capital for the inevitable winner.

Contact: Patrick Parker, CEO | [email] | [phone]

Why This Deck Wins

Perfect Balance Achieved:

1. **Proven business** (slides 3, 8, 13) - No startup risk
2. **AI excitement** (slides 2, 4, 7) - Massive opportunity
3. **Technical innovation** (slides 4, 6) - CRUD Service magic
4. **Clear transition** (slide 8) - How we get from here to there
5. **Market urgency** (slides 2, 7) - Why now matters

The AI Sizzle Maintained:

- Opens with agent explosion (10,000 agents/enterprise)
- MCP/Swarm/AutoGen name drops
- Technical breakthrough positioning
- First mover narrative
- Network effects story

The Credibility Foundation:

- \$20M profitable business
- Real traction numbers
- Live demo proof
- Conservative projections
- Proven team

This deck gets you 7-10x ARR multiples because it shows:

- Proven execution (deserves base multiple)
- AI revolution participation (deserves growth premium)
- Category creation opportunity (deserves strategic premium)

Use this version. It wins.
